MINERAL WALL SLABS & TILES

*walls*  
**REDEFINED.**

*content*

- 4** introduction
- 16** collections
- 52** accessories

*When we began working on MODEE, the goal was clear and almost pragmatic: to rethink wall design in a way that makes renovation faster, cleaner, and radically simpler, without sacrificing aesthetics.*

To turn weeks of work into hours.  
To let materials do the heavy lifting, so decisions become easier and results more certain.

What started as a technological innovation was noticed by those who define global design standards. Red Dot Design Award. German Design Award. Dobry Wzór.

The most respected juries. The highest benchmarks. And MODEE, new to the market, already among them.

We don't see these recognitions as trophies. We see them as confirmation. Confirmation that redefining walls also meant redefining expectations.

*walls*  
**REDEFINED.**

*Because MODEE is not  
just a new wall solution.  
It's a new way of thinking  
about surfaces.*

A shift between technology and aesthetics.  
Proof that fast renovation can coexist  
with premium architecture and refined design.

Walls redefined is more than a tagline for us.  
It's an honest description of what we set out to do:  
redefine walls, redefine the renovation process,  
and, in doing so, give new momentum  
to an entire category.

*And yes,*  
**WE'RE PROUD.**

Because when something truly new  
is recognized by the world's leading  
design authorities, it means the change  
was not only bold, but necessary.

DOBRY  
WZÓR  
LAUREAT'25

*Time is the one thing  
You never have enough of.*

Whether you're renovating a bathroom, fitting out a hotel, or producing bathroom pods on an assembly line — time is always the most expensive material.

**MODEE WAS DESIGNED  
TO CHANGE THAT.**

MODEE Mineral Wall transforms the way interiors are finished. It dramatically shortens installation time, simplifies logistics, and removes unnecessary steps from the process.

*time*  
**REDEFINED.**

## *Redefine time.* **GAIN THE ADVANTAGE.**

This is not just faster renovation.  
It's a competitive advantage built on time savings.

Because in residential projects, speed means comfort sooner.  
In hospitality, speed means rooms back in service.  
In industrial production, speed means scalability.

### New investment\*

|                                      | Ceramic tile                                                                                                                                                                                                   | Mineral wall             |

A renovation without demolition can **save up to 6 days and generates zero rubble** inside the apartment.

\*The comparison is based on a standard 4 m<sup>2</sup> bathroom with a total wall surface area of 10 m<sup>2</sup>.

*Designed to install.*  
**DESIGNED TO MOVE.**

MODEE is engineered to make installation intuitive, fast, and flexible — without specialist tools or complex preparation. The integrated tongue & groove locking system ensures precise alignment and a seamless finish, while keeping the process simple and repeatable.

No heavy machinery.  
No expensive specialist equipment.  
Just smart design.

**INSTALL OVER  
EXISTING SURFACES**

MODEE can be installed directly over old finishes — including tiles — eliminating demolition, dust, and downtime.

*effortless*  
**BY DESIGN.**

## *Lightweight. Flexible. Practical.*

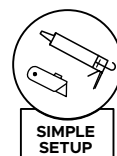

At just 4 mm thickness, it doesn't steal space, yet delivers a refined, architectural surface.

Unlike traditional tiles, MODEE is lightweight and flexible —easy to transport, easy to handle, and far less fragile.

Panels can be carried, positioned, and installed even by one person, making logistics simpler and work more efficient.

From transport to installation, every detail is designed to move faster.

*Less effort. Less time.*  
**MORE CONTROL.**

Great design doesn't ask you to choose.  
Between aesthetics and performance.  
Between trend and longevity.

MODEE is shaped by the best of European design —  
designed and manufactured in Europe,  
with the precision, culture, and sensibility that implies.

*Seen. Felt.*

**EXPERIENCED.**

*design*  
**WITHOUT COMPROMISE.**

*Design is not only what you see.*  
**IT'S WHAT YOU TOUCH.**

MODEE combines optics and haptics —  
distinct structures, refined patterns,  
surfaces that play with light and respond to touch.

Structure gives depth.  
Pattern gives character.

**6** unique  
designs

**15** unique  
designs

**18** unique  
designs

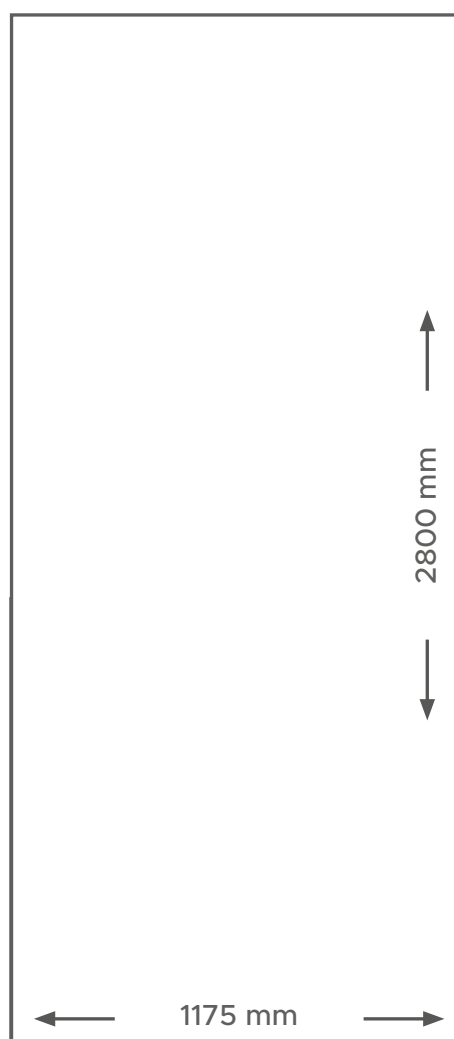

**8** unique  
designs

Design also means scale.

Large-format slabs up to 2800 mm  
and tiles 1200 × 600 mm  
allow spaces to breathe, uninterrupted.

*Fewer joints.*  
**MORE ARCHITECTURE.**

*At first glance, you think:*

## **TILES. BATHROOM.**

And yes — MODEE feels perfectly at home there.  
But its potential goes much further.

### *Residential* **SPACES**

In private interiors, MODEE moves beyond wet zones. It works wherever walls need to be both practical and expressive.

Hallways and corridors that take daily wear.  
Kitchens where durability meets design.  
Statement walls — behind the TV, at the headboard, along staircases.

Functional surfaces become architectural features. Walls stop being background.

Corridor

*designed for more*  
**THAN BATHROOMS.**

## *Commercial* **INTERIORS**

In commercial spaces, MODEE brings consistency and speed to areas that define first impressions.

Corridors and passageways.  
Common areas and conference rooms.  
Bars and restaurant spaces, where atmosphere matters as much as durability.

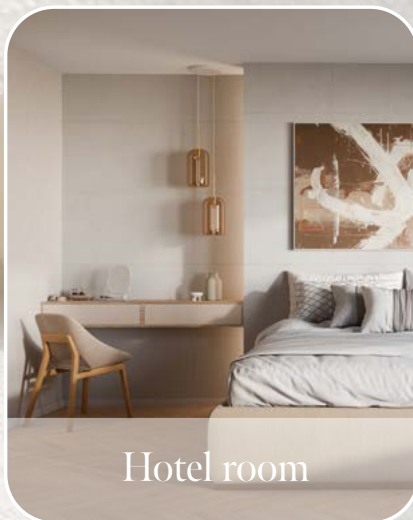

From neutral backdrops to bold accents, MODEE adapts to the rhythm of the space.

## *Modee lock*

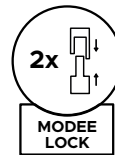

# **EFFORTLESS ELEGANCE.**

With Modee, we combine versatility with innovation to offer a range of formats, textures, and advanced features that elevate your wall designs.

### *Modee lock*

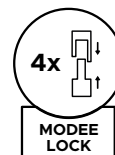

Available in: 2-sided and 4-sided locking systems, ensuring effortless installation, perfect alignment, and a secure fit.

The specialized groove for silicone ensures waterproof connections, making the panels highly resistant to moisture and ideal for wet areas.

■ 2-sided  
Modee LOCK

Seamless bevel

■ 4-sided  
Modee LOCK

DecoBevel

### *DecoBevel*

A subtle groove design that mimics the look of grout lines, adding a sophisticated, realistic finish to your walls.

Available only in TILES.

## *Stone* **CALDERA**

Caldera is a warm, stone-inspired décor shaped by the quiet power of nature. Gentle tonal transitions and refined surface details give it depth and a naturally elegant character. Its soft, earthy hues create a welcoming atmosphere while maintaining a contemporary, sophisticated feel. Caldera pairs beautifully with wood and natural textiles, making it ideal for balanced, harmonious interiors where comfort and modern design come together seamlessly.

**CONCRETE.**

*Minimalist and industrial this collection captures the raw appeal of concrete, perfect for modern and edgy spaces.*

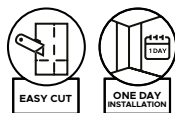

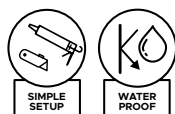

**MASSI**  
*grey / WM 525*

## MASSI

The **Massi** décor draws inspiration from concrete mixed with coarse aggregate - a blend of gravel and sand. Its design features a textured surface with visible aggregates, balanced by smoother cement areas, offering a dynamic and versatile aesthetic.

This combination makes Massi a perfect choice for spaces where industrial character meets universal applicability.

## MONO

The **Mono** décor redefines simplicity with two distinct structures: a tactile ribbed surface and a refined grid-like texture reminiscent of concrete. From a distance, it appears as a uniform, solid color, perfectly aligned with popular interior palettes. Up close, its intricate details and bold textures reveal themselves, adding depth and sophistication. This versatility ensures that Mono not only enhances the visual appeal of modern interiors but also creates a dynamic sensory experience.

Georgia O'Keeffe

### Modee glue

The ultimate adhesive  
for reliable installation

Modee glue is a professional-grade duopolymer-based adhesive, engineered for superior performance in wall panel installations. With an extremely high initial bonding strength of 25 kg/cm<sup>2</sup>, it grips firmly within just 1 second of application, ensuring a secure hold from the start.

Its permanently flexible bond adapts to surface movements, while being both waterproof and watertight, making it ideal for use in humid environments. Modee glue is also odorless and solvent-free, providing a clean and safe application process. Whether for residential or commercial projects, this adhesive is the robust, reliable solution for flawless and lasting results.

| No.           | Color | Capacity (ml) |
|---------------|-------|---------------|
| 5905167884096 | White | 290 ml        |

*Easy installation*

**WATCH & DO IT NOW!**

## *Essential accessories for a perfect finish*

To complement the **Modée** panel system, we offer a range of installation accessories designed to ensure precision, durability, and ease of use. These include inner and outer corner profiles as well as finishing profiles, each tailored to meet the demands of both residential and commercial spaces.

Profiles simplify the installation process, allowing for adjustments during setup, covering edge imperfections, and protecting corners from water infiltration and wear. By combining functionality with design, these accessories not only enhance the practicality of your walls but also ensure a clean, polished, and professional look.
